WILSON AWAITING HUERTA'S REPLY

Extreme Reticence in Official Circles Regarding Nature of Recent Communication

TO SOLVE THE PROBLEM BY PEACEFUL MEANS

President Still Hopeful of Relieving Mexican Situation Through Diplomatic Channels—Not Disturbed by Predictions of Armed Intervention—Member of Mexican Senate at Havana Makes Charges Against Huerta.

Washington, Nov. 5.—Waiting for word from Provisional President Huerta—this was the attitude of official circles today in the Mexican situation. Administration officials still refused to shed any light on the last communication which conveyed to General Huerta the desire of the United States that he eliminate himself from the tangled situation. His attitude is that to discuss publicly the delicate phases of the problem might defeat the ends being sought.

Intense interest at Capital. The belief in the national capital is none the less one of intense interest, especially as to what course will be pursued if General Huerta declines to abdicate. It is an exciting time for those who talked with President Wilson about the situation today that he was calmly awaiting developments. He has told his friends that he would continue to try to solve the situation by peaceful means and would not be disturbed by predictions of armed intervention.

No opinion of Huerta's reply. The belief is general here that the situation is being worked out with extreme secrecy in diplomatic channels, and that only when some tangible conclusion has been reached will there be any official announcements.

There was no collective opinion in official circles as to what Huerta's reply to the American representations might be. No one ventured predictions and so far as could be learned no intimations had been received as to Huerta's attitude.

Medical Examiner Clark said that in his opinion the man must have been taken sick while at the wheel, for he could find no evidence of any attempt being made to stop the car. The machine had plunged at full speed over the side of the road, and the road was before the fence was met.

Joseph Milbank, in whose employ the dead man had been for ten years, shares the same view.
